

## Brookside Academy Skills, Knowledge and Vocabulary document

### Geography

#### Aims

The national curriculum for geography aims to ensure that all pupils:

- Develop contextual knowledge of the location of globally significant places – both terrestrial and marine – including their defining physical and human characteristics and how these provide a geographical context for understanding the actions of processes
- Understand the processes that give rise to key physical and human geographical features of the world, how these are interdependent and how they bring about spatial variation and change over time are competent in the geographical skills needed to
  1. Collect, analyse and communicate with a range of data gathered through experiences of fieldwork that deepen their understanding of geographical processes
  2. Interpret a range of sources of geographical information, including maps, diagrams, globes, aerial photographs and Geographical Information Systems (GIS)
  3. communicate geographical information in a variety of ways, including through maps, numerical and quantitative skills and writing at length.

#### KS1

Pupils should develop knowledge about the world, the United Kingdom and their locality. They should understand basic subject-specific vocabulary relating to human and physical geography and begin to use geographical skills, including first-hand observation, to enhance their locational awareness.

Locational knowledge	Place knowledge	Human and physical geography	Geographical skills and fieldwork
<ul style="list-style-type: none"> <li>• name and locate the world's seven continents and five oceans</li> <li>• name, locate and identify characteristics of the four countries and capital cities of the United Kingdom and its surrounding seas</li> </ul>	<ul style="list-style-type: none"> <li>• understand geographical similarities and differences through studying the human and physical geography of a small area of the United Kingdom, and of a small area in a contrasting non-European country</li> </ul>	<ul style="list-style-type: none"> <li>• identify seasonal and daily weather patterns in the United Kingdom and the location of hot and cold areas of the world in relation to the Equator and the North and South Poles</li> <li>• use basic geographical vocabulary to refer to:                             <ol style="list-style-type: none"> <li>1. key physical features, including: beach, cliff, coast, forest, hill, mountain, sea,</li> </ol> </li> </ul>	<ul style="list-style-type: none"> <li>• use world maps, atlases and globes to identify the United Kingdom and its countries, as well as the countries, continents and oceans studied at this key stage</li> <li>• use simple compass directions (North, South, East and West) and locational and directional language [for example, near and far; left and right], to describe the location of features and routes on a map</li> </ul>

		<p>ocean, river, soil, valley, vegetation, season and weather</p> <p>2. key human features, including: city, town, village, factory, farm, house, office, port, harbour and shop</p>	<ul style="list-style-type: none"> <li>• use aerial photographs and plan perspectives to recognise landmarks and basic human and physical features; devise a simple map; and use and construct basic symbols in a key</li> <li>• use simple fieldwork and observational skills to study the geography of their school and</li> <li>• its grounds and the key human and physical features of its surrounding environment.</li> </ul>

**KS2**

Pupils should extend their knowledge and understanding beyond the local area to include the United Kingdom and Europe, North and South America. This will include the location and characteristics of a range of the world's most significant human and physical features. They should develop their use of geographical knowledge, understanding and skills to enhance their locational and place knowledge.

<b>Locational knowledge</b>	<b>Place knowledge</b>	<b>Human and physical geography</b>	<b>Geographical skills and fieldwork</b>
<ul style="list-style-type: none"> <li>• locate the world's countries, using maps to focus on Europe (including the location of Russia) and North and South America, concentrating on their environmental regions, key physical and human characteristics, countries, and major cities</li> <li>• name and locate counties and cities of the United Kingdom, geographical regions and their identifying human and physical characteristics, key topographical features (including hills, mountains, coasts and rivers), and land-use patterns; and understand how some of these aspects have changed over time</li> <li>• identify the position and significance of latitude, longitude, Equator, Northern Hemisphere,</li> </ul>	<ul style="list-style-type: none"> <li>• understand geographical similarities and differences through the study of human and physical geography of a region of the United Kingdom, a region in a European country, and a region within North or South America</li> </ul>	<ul style="list-style-type: none"> <li>• describe and understand key aspects of:               <ol style="list-style-type: none"> <li>1. physical geography, including: climate zones, biomes and vegetation belts, rivers, mountains, volcanoes and earthquakes, and the water cycle</li> <li>2. human geography, including: types of settlement and land use, economic activity including trade links, and the distribution of natural resources including energy, food, minerals and water</li> </ol> </li> </ul>	<ul style="list-style-type: none"> <li>• use maps, atlases, globes and digital/computer mapping to locate countries and describe features studied</li> <li>• use the eight points of a compass, four and six-figure grid references, symbols and key (including the use of Ordnance Survey maps) to build their knowledge of the United Kingdom and the wider world</li> <li>• use fieldwork to observe, measure, record and present the human and physical features in the local area using a range of methods, including sketch maps, plans and graphs, and digital technologies.</li> </ul>

Southern Hemisphere, the Tropics of Cancer and Capricorn, Arctic and Antarctic Circle, the Prime/Greenwich Meridian and time zones (including day and night)

**Geography Intention Statement**

Teaching Geography at Brookside Academy is focused on igniting and sparking a passion for the vast curiosities of the world and all that lives in and among it. The subject itself covers many areas, from landscapes and environments to people and resources, so learners will leave Brookside equipped with skills and knowledge founded from within this investigative subject for life beyond education. Our learners will take with them, the desire to understand and enquire further about the wider world and their place within it. Living in a rural area, children will be taught about their direct geographical location, alongside other diverse places, broadening and comparing their experience of life outside of their immediate locality. This will be taught through map skills, physical and human processes, fieldwork and place knowledge. With an ever-changing planet, the Geographical curriculum will need to change with it to include current issues, such as plastic waste and problems faced by different Geographical areas. Our learners are the future generation and so it is our job to teach and guide them how to be responsible for our planet, and alongside cross curricular links, Brookside learners will be fully prepared to utilise their skills and expand their interest within the subject.

**Year 5**

	<b>Skill and Knowledge</b>	<b>Vocabulary</b>
Geography skills and fieldwork	<ul style="list-style-type: none"> <li>• I use maps to understand the routes taken by Tudor explorers.</li> <li>• I use maps to understand the location of the Viking invasion of the UK and why they settled where they did.</li> <li>• I can use maps, atlases and digital/computer mapping (Google Earth) to locate countries and describe features studied</li> <li>• I am beginning to use the eight points of a compass, four and six-figure grid references, symbols and key (including the use of Ordnance Survey maps) to build their knowledge of the United Kingdom and the wider world with a particular focus on Street.</li> <li>• I can use fieldwork to observe, measure, record and present the human and physical features in the local area using a range of methods, including sketch maps, plans and graphs, and digital technologies.</li> </ul>	trade routes grid reference settlement surface Ordnance survey Symbols
Physical Geography	<ul style="list-style-type: none"> <li>• I am aware of the changes of land usage locally and understand the impact of this on the land physically.</li> </ul>	urban rural land use
Human Geography	<ul style="list-style-type: none"> <li>• I can identify types of settlement and land use, economic activity including trade links.</li> <li>• I understand the impact of Tudor exploration and the routes that were taken and natural resources that were brought back.</li> <li>• I can use a local study to look at the impact on the local economy</li> </ul>	Population Economy Settlement Trade routes
Place Knowledge	<ul style="list-style-type: none"> <li>• I can identify human and physical geographical features of Street (with an emphasis on the impact of the Clarks family)</li> <li>• I can identify the geographical similarities and differences through the study of human and physical geography of a region of the United Kingdom.</li> </ul>	Natural resources Slave trade transportation
Locational Knowledge	<ul style="list-style-type: none"> <li>• I can use maps to locate countries of the world, including countries in North and South America.</li> <li>• I can map the route taken by Tudor explorers.</li> <li>• I can explore the world using Google Earth.</li> <li>• I can locate familiar places (with a focus on Somerset) on a map.</li> <li>• I can identify the position and significance of latitude, longitude, Equator, Northern Hemisphere, Southern Hemisphere, the Tropics of Cancer and Capricorn, the Prime/Greenwich Meridian and time zones (including day and night)</li> </ul>	Greenwich Meridian and time zones latitude longitude Equator

		Northern Hemisphere Southern Hemisphere Tropics of Cancer and Capricorn
